

Finsbury Circus House

London EC2

- Project Name: Finsbury Circus House
- Stone Contractor: Putney & Wood
- Architect: Fletcher Priest
- Main Contractor: Skanska
- Stones Used: Belgian Blue with Sabbiato and Scylpe finishes
- Completed: March 2013

The reception floor of this impressive redevelopment project in the heart of Finsbury Circus Conservation Area shows Belgian Blue limestone flooring at its best.

The stone's characteristics contrast beautifully with the new Portland stone feature wall.

“Trans-European Stone have provided top quality stone and a great service. We'll be using them again.”

Matthew Keane, Putney & Wood
